### Parent / Guardian

I understand and agree on the following:

- 1) Sometimes the internet gives access to information that the school cannot control which could be illegal or offensive.
- 2) School will always put effort to prevent access to inappropriate sites. However the student is responsible if she tries to access sites which are irrelevant to education.

I believe that my daughter/son \_\_\_\_\_ understands this responsibility. Therefore I give her/him the permission to access the network under the school rules and regulations. I also understand that if my daughter/son breaks these rules will be subjected to appropriate action by the school administration.
