Child Protection and Safeguarding Policy

Policy Statement

RAKAA is concerned about the welfare and safety of all its students and works to create an ethos in which students feel secure and listened to. We ensure that the implementation of the Child Protection Policy is successful through proper recording of incidents and responding appropriately for any incident reports. Our Policy is created in accordance with the Wadeema's Law (Federal Law No.3 of 2016) which aims to protect children against all forms of negligence, physical and psychological abuse. We ensure to stay alert to any signs of abuse and neglect and to follow the procedure so that the students will receive the best support, care, and protection.

Support for students and staff

The Principal will make all reasonable attempts to protect and otherwise support students who have disclosed information about possible child abuse incidents. Dealing with a disclosure from a child is likely to be a stressful experience. Likewise, the member of staff should seek support from the Principal if she/he has any concern and discuss it with the

Principal.

CONFIDENTIALITY

Staff members who have access to confidential information about students are expected to:

- ❖ be discreet and treat the information confidentially;
- ❖ discuss the information to the Child Protection and Safeguarding team if they have doubts of sharing the information;
- ❖ be careful when divulging information to others about a student.

RECORDS and MONITORING

Well -kept records are essential to good Child Protection practice.

Concerns and disclosures should be recorded in writing by the member of staff who receives them and passed to the Designated staff member-Nurse/Doctor/Head Student Support/HOSs, without delay. The Child Protection and Safeguarding team will discuss with the Principal about further action, monitoring, and intervention program for the student.

STAFF TRAINING

All staff receive Health and Safety Training as part of the CPD program. Staff are informed of any changes subsequently made to the policy and updated of any circulars from MOH and or the MOE.

New staff have Induction training that includes orientation and explanation about child protection and safeguarding policy, eSafety policy and other related policies concerning the welfare of the students. All the policies are to be signed by all staff to ensure that they know their responsibility in safeguarding and protecting the welfare of the students.

CHILD PROTECTION AND THE CURRICULUM

The school curriculum is important in the protection of children. We aim to ensure that curriculum development meets the following objectives (these are often met through Moral Education, Homeroom contact and leadership programs. Assemblies also focus on anti-bullying. The Head of student Support has also focused on child protection in developing awareness on anti-bullying in Leadership lessons. The Moral Education class affords additional opportunities to focus on respect for self and others and the importance of having positive relationships. The Year of Tolerance and the messages from the World Government Summit 2019 are shared with all students and parents including staff. To ensure the continuous advocacy of protecting our students in an online learning/blended platform for this academic year, 2020-2021, the Homeroom teachers

and ICT teachers conduct Digital Citizenship Skills lessons and Online Safety education, respectively.

Developing Student Self Esteem

- Developing communication skills;
- Informing about all aspects of risk-RAK Police lectures;
- Developing strategies for self-protection;
- Developing a good sense of distinction between appropriate and inappropriate behavior in adults
- Developing non-abusive behavior between students.

What to do if you are told of abuse:

- Stop and listen
- Take notes and keep (verbatim)
- Do not interrupt
- Do not be judgmental
- Promise of confidentiality should not be given outright
- Avoid leading questions/coaxing or pressurizing.
- If she/he has spoken up, take note of any concern of going home
- Verbatim record should be given only to the Child protection and Safeguarding Team
- Discretion should be maintained in the staff room.
- Never think it cannot happen
- Do not work in isolation

What Happens Next

- Member of staff with suspicion/concern/ disclosure informs designated staff member/s
- The Designated staff member gathers information.

Where:

When in need of serious health or immediate welfare attention, the parents will be contacted immediately, and child should be taken to the nearest A&E department.

When allegations are made against a member of staff:

- A full report is made to Complaints Committee.
- A written record will be asked for. It should be signed and dated and given to the Principal and forwarded to HR as a record for the Complaints Committee.

- Staff recommended for suspension pending investigation
- Reference to the School Board is made on all such matter

Attendance

The school recognizes the importance of full attendance to the wellbeing of the students to have a full access of the educational opportunities provided to them. Thus, missing students i.e., having frequent absences (10 or more unexcused absences per term) impact their academic performance. Close monitoring and constant follow-up are done to these students. Reasonable steps will be undertaken such as telephone calls, sending letters home (recorded delivery), contacts with other siblings, friends, and visit at home. If these actions are taken and still the absences persist, the school can seek the help from the MOE-CPU to address this concern.

Good Practices in Helping the Students to be Safe

The UAE School Inspection Framework requires all schools to ensure that all students must be properly educated on how to be safe in and out of school as well as provide guidelines, rules and expectation while engaged in an online learning. Detailed guidelines and strategies are outlined in [RAKAA Online Safety Policy](#).

In RAKAA, students are constantly reminded to act responsibly while doing online activities. Lessons about online safety are incorporated in all subjects to inculcate the importance of online safety education. They are expected to always practice responsible and sensible behavior under any circumstances. Students are taught diligently on various technology risks, strategies to employ and procedures to follow for any bullying or cyber bullying experience.

Through their Moral Education, Digital Citizenship and Leadership lessons, students are taught to become an empowered, independent, and critical thinkers who can respond appropriately and manage to face and overcome risk and imminent danger. The Homeroom teachers act as adult advocates who are willing to listen, encourage and support the students if they feel bothered, anxious, or confused. The school community promotes the ethos of respect among students, teachers, administrative and support staff.
